## PRODUCT QUALITY

Products are inspected and tested by Naama Hofman Light Objects prior to release to ensure that the order is in good condition, fully functional, complete and ready for shipment.

Many metal finishes are applied by hand and may vary in color, tone and character. While Manufacturer will make every effort to match a finish, no guarantee can be made of an exact match. All lighting is handmade, and therefore is subject to slight variations in tone and surface.

## PRODUCT CARE & MAINTENANCE

Your lighting fixture was crafted with integrity at Naama Hofman Light Objects. With proper care, it should last forever. To avoid damaging the finish, clean the fixture only when it is cool to the touch. Use something soft, like a feather duster or microfiber cloth, for the armature. For safety's sake and to protect the stability of its installation, do not spin, move or hold the fixture when cleaning.

For brass, use a microfiber cloth for brass or bronze shades. Do not use glass cleaner or abrasives of any kind on any metal surface. For polished metal, clean polished metal or polished stainless with a cloth. Avoid commercial or heavy duty polishes or waxes, as they can scratch or damage the finish.
